

What is Big Boys Toys policy regarding a "Rental Day"?

We do not require our rental units to be returned each day or before we close. A rental day begins at the time the unit leaves our lot and is not required to be returned until one hour prior to opening the following day. So, for example, if you pick up an ATV at 10am on the rental day the unit does not have to be returned until the next morning, one hour prior to opening of BBT. We also allow units to be returned in the evening when we are closed.
